

Riesling Urgestein 2023

Around Schrottenthal there are gentle hills shaped by primary rock. This is the granite rock of the Bohemian Massif, which was formed around 600 million years ago. We planted our Riesling vines on these soils because they produce elegant and mineral wines. Our local Riesling wine.

- › Complex scent of flowers and stone fruit, mineral-tinged herbal spices, delicate smoky hints and lively acidity, an elegant, stimulating Riesling that makes you want to take another sip.
- › Goes well with grilled fish and seafood, as well as wok dishes, sushi and sashimi.

Technical data

100% Riesling

Austrian quality wine

dry
